

TIME: 1½-2 hours

Tupperware®

Cinnamon-Vanilla APPLE CHIPS

These are delicious, light, pre-bake and take snacks you can bring to any party where you'll be featuring or discussing the Time Savers Mandoline™. They do take a little time but will stay fresh for 3-5 days.

1 apple, any type
1 tsp. Simple Indulgence Cinnamon-Vanilla Seasoning Blend

1. Preheat oven to 225° F/107° C.
2. Attach apple (no need to core) to your Time Savers Mandoline™ food guider, set round knob to #2 for thicker slices, or #1 for thinner slices.*
3. Place apple slices on two baking sheets lined with parchment paper and sprinkle with seasoning blend.
4. Bake both sheets at the same time, on upper and lower racks, 45 minutes.
5. Flip slices and bake another 45 minutes. For thicker slices, more baking time may be necessary. Monitor throughout baking and remove chips once they crisp up and lose their moisture.
6. Cool on a cooling rack until chips are crisp and store in a Modular Mates® container.
7. Bring to parties for guests and Hosts to taste whenever you are doing a Time Savers Mandoline™ demonstration.

**The thicker #2 slices take longer to bake, but it is easier to slice on #2 for beginners. As you get used to using your Mandoline, #1 is recommended as chips bake faster.*

MUST HAVE

Time Savers Mandoline™
